

Report

The Department of Economics and Geography, Hamida Girls Degree College, University of Allahabad have organised a one day field tour to Indian Farmers Fertilizer Cooperative Limited (IFFCO), Phulpur on 02 December 2024 at 10:00 AM to 3:00 PM. IFFCO is one of the largest cooperative societies in India, focusing on manufacturing and marketing a wide range of fertilizers. Established in 1967, its mission is to provide affordable and quality fertilizers to Indian farmers, thus ensuring food security in the country. It was a very wonderful experience for the students as well as for the Teacher's who have visited the fertilizer plant. The students have learned about the agriculture training of the farmers, animal husbandry, farming, horticulture, and bio- fertilizer and soil testing methods. The IFFCO Cordat give free of cost training to the farmers for the agriculture practices as well as animal husbandry farming etc. Farmers not only from the different part of India but also from the world used to come to this training centre for the better use of the agriculture practices and machinery. We are very thankful to the authority of Hamidia Girls' Degree College who have given the chance to organise such a wonderful tour and also to the IFFCO authority who has accepted our request and allowed to visit their plant and to learn about their services and activities to the society. Associate Professor Dr. Amna Farooqui, Assistant Professor Dr. Gulshan Akhtar and Dr. Shabnam Ara were the organising faculties of the respective departments.
